

Property Listing Dashboard – User Guide

Access & Refresh

- Desktop: Click Refresh on the Home ribbon.
- Service: Use Refresh now or scheduled refresh.
- Ensure data gateway is connected if using on-prem sources.

Page Navigation

- Use page tabs or the page navigator at the bottom to switch views.
- Hover visuals to view tooltips and drill options.
- Filters on the right apply to the active page only.

Scenario Insights – What If Slider

- Line Chart

Displays Projected Market Value vs. What-If Price per Sq Ft

→ Shows how market value trends change as pricing is adjusted from -20% to +20%.

- Card Visuals

Highlight Adjusted Rent Yield under different pricing scenarios.

→ Values update dynamically as the What-If slider is moved.

Best Practices

- Always refresh before presenting insights.
- Use full screen mode for executive reviews.
- Avoid exporting partial filtered data unless intended.
